Whiting & Turner Contracting Company

Re: Childs Landscape Contractors,Inc.

To Whom It May Concern,

As a Grading and Sediment Control Inspector with Anne Arundel County for 15 years,I have had A long standing working relationship with Childs Landscaping Contractors,Inc. Childs Landscape Has both the skill and experience to handle all types of working environments from residential and critical area construction to large scale home development sites.They have been very instrumental in the success of many projects throughout the county.We all know that time is money and I,as well as my fellow inspectors,have always been able to count on Childs Landscape to respond at a moments notice to sediment control emergencies and to quickly get jobs reopened.

I would highly recommend Childs Landscape Contractors for the Annapolis Town Center at Parole. They will bring years of landscape experience,the latest industry knowledge and equipment technologies to your and they will also add to the success of this project.

Respectfully,

Gordon Smith,Inspector
Anne Arundel County Grading and Sediment Control
