Re: Services Rendered by Childs Landscape Contractors  
At Annapolis Towne Centre at Parole

Dear Harry:

I want to thank you for all the hard work you and the rest of the Childs family did to help us complete Annapolis Towne Centre at Parole on schedule. This was a very challenging project (the landscape package worth over \$2.4 Million) and Childs brought it together in less than 10 months. This clearly shows how your group worked through extremely challenging timeframes and demanding site conditions to create a beautiful project. Seeing you, the president of the company, working the Bobcat days before the Grand Opening is a refreshing site and shows the work ethic that you and the rest of your staff has. I look forward to working with Childs in future projects. Good luck on all your future endeavors.

Sincerely,

*Vice President / Development Director*
