RE: Child's Landscaping – Recommendation Letter

To Whom It May Concern:

Child's was the installation landscaper on our project here in Baltimore and did a wonderful job of executing the landscape architect's design; since then they have been maintaining the site. Our project is difficult and unique since 95% of our 6 acre site is actually landscaped over top of a concrete slab or on roof top terraces; however you do not get that sense when walking our property.

Child's has been flexible and accommodating our last minute requests and changes. Their team is professional, courteous and a pleasure to do business with, even in these tough times when every dollar counts.

Sincerely,

Dean A. Caruso  
General Manger
