

"I just want to send a note saying how pleased I am with all the persons and Chano up to this point. You guys have come in and knocked things out as quick as possible and professional as you can be.

It's a breath of fresh air to have a sub so cooperative and in this time of covid be very proactive with face masks working out in this heat.

Your guys never quit until things were complete.

Thanks again and look forward to seeing you back on Aug 31<sup>st</sup> to start planting and putting sod down for us.

Thank you"
